SMALL NON-RESIDENTIAL – SINGLE PHASE SERVICE  
SCHEDULE "SI"  
PAGE 2**

**CONDITIONS OF SERVICE**

1. Motors having a rated capacity in excess of ten horsepower (10 HP) must be three-phase.
2. Both the main load and any supplementary connected load may be billed at the applicable rate. If separate meter is required for any supplementary load, the registrations of the two meters shall not be added to obtain the billing units used.
3. All wiring, pole lines, and other electrical equipment beyond the metering point, shall be considered the distribution system of the consumer and shall be furnished and maintained by the consumer.
4. The consumer shall guarantee a minimum annual revenue of not less than 18% of the estimated additional investment required to extend service, which shall include the additional cost of meters, transformers, and any additions to or alterations of lines and equipment necessary to make service available. Minimum charges for service shall be based on the additional investment only when this results in greater charges than those based on the kVA transformer capacity. In all other cases, the minimum charges shall be based on kVA of transformer capacity as herein before provided.

**TERMS OF PAYMENT**

The above rates are net. Bills are due when rendered and past due if not paid within 20 days of the billing date.
